

## Katherine A. Kendall Institute for International Social Work Education

The Katherine A. Kendall Institute for International Social Work Education (KAKI) was officially launched at a birthday gala for Dr. Kendall hosted by Hunter College on Tuesday, March 1, 2005. Organized by CSWE and the Institute's steering committee, the event was a celebration of Dr. Kendall's achievements and generosity in social work education over the course of her 70-year career. During the program, 15 of the 95 friends, colleagues, and admirers who attended the celebration recalled the profound impact of Dr. Kendall on their professional lives.

The purpose of the Katherine A. Kendall Institute for International Social Work Education is to foster the mainstream development of international content in social work education and to increase the cross-organizational collaboration in project development, as well as research and data collection and dissemination.
